### About FOAM EXPO

Foam Expo North America is the world's largest dedicated exhibition and conference for the manufacturers and buyers of technical foam products and technologies. The conference and exhibit highlight the latest innovations in foam manufacturing. This includes equipment & machinery, raw materials, processing, laminating, molding, cutting, converting & fabricating, recycling, and testing. **Visit Poly Labs at North American Foam Expo, Booth 2214!**

Foam Expo provides the foam community a forum to share ideas, discuss and develop solutions, and promote services for the industry. Foam Expo 2021 will provide visitors, exhibitors, and attendees with several opportunities, including:

- Network with foam industry leaders
- View product demonstrations
- Learn about company capabilities
- Collect product samples
- Educate those within the industry

Poly Labs looks forward to engaging with technical foam specialists and industry leaders, in addition to showcasing our own capabilities, products, and facility highlights - such as our material test & formulation lab and PU machinery.

**The dates for North American Foam Expo 2021 are:**

Tuesday, July 13 <sup>th</sup>
Wednesday, July 14 <sup>th</sup>
Thursday, July 15 <sup>th</sup>

## Polyurethane Foam Solutions

Foam Expo highlights the latest innovations in foam manufacturing for several industries, many of which Poly Labs currently serves. This includes:

- **Construction & Safety Products**
- **Sports & Leisure**
- **Automotive**
- **Medical**

Our team is excited to showcase many of the foam systems, formulations, materials, and finished products Poly Labs currently produces, including:

- **Footwear Components (Insoles, Outsoles, Midsoles and more)**
- **Impact Protection / Energy Absorbing Foam**
- **Viscoelastic / Slow Recovery Foam**
- **Microcellular / Integral Skin PU**
- **Flexible Polyurethane Foam**

Poly Labs at Foam Expo 2021 marks the first trade show attendance since the organization's spin-off and launch in **November 2020**. Since then, the team announced a doubled workforce, as well as an increase in production, technology, and several newly developed finished products for various OEM partners.

Poly Labs looks forward to attending Foam Expo 2021, learning about the latest technology developments and manufacturing innovations from our fellow industry colleagues. We hope you stop by our booth to learn about our facility, laboratory capabilities, manufacturing processes, and machinery. Most importantly, stop by **Booth 2214** to see the newest polyurethane (PU), TPU, TPE products and solutions!
